Children with health needs who cannot attend school Policy

The Viking Academy Trust

Empowering Children Through Education: One Childhood One Chance

Schools in the Viking Academy Trust (VAT)

Chilton Primary School
Ramsgate Arts Primary School
Upton Junior School

This ‘**Children with health needs who cannot attend school Policy**’ is for all the aforementioned schools

1. Aims

This policy aims to ensure that:

- Suitable education is arranged for pupils on roll who cannot attend school due to health needs
- Pupils, staff and parents understand what the school is responsible for when this education is being provided by the local authority

2. Legislation and guidance

This policy reflects the requirements of the [Education Act 1996](#).

It is also based on guidance provided by the Department for Education. [Click here](#) to access this information.

This policy complies with our funding agreement and articles of association.

3. Responsibilities of the school

At the Viking Academy Trust, we aim to ensure that all children, regardless of circumstance or setting receive a good education to enable them to shape their own futures. Where children are unable to attend school because of their health, the school will follow Department of Education Guidance and work with Kent County Council, who have the responsibility to arrange suitable full-time education (or part-time when appropriate for the child’s needs) for children who are unable to attend a mainstream school because of their health.

The Local Authority (KCC) is responsible for arranging suitable full-time education for children who – because of illness or other reasons – would not receive suitable education without such provision. There will however, be a wide range of circumstances where a child has a health need but will receive suitable education that meets their needs without the intervention of the Local Authority, for example, where the child can still attend school with some support. Where the school has made arrangements to deliver suitable education outside of school for the child; or where arrangements have been made for the child to be educated in a hospital by an on-site hospital school, we would not expect the Local Authority to become involved in such

arrangements unless it had reason to think that the education being provided to the child was not suitable or, while otherwise suitable, was not full-time or for the number of hours the child could benefit from without adversely affecting their health. This might be the case where, for example, the child can attend school but only intermittently.

3.1 If the school makes arrangements

Initially, the school will attempt to make arrangements to deliver suitable education for children with health needs who cannot attend school.

This will involve:

- Initial contact being made by the pastoral team to establish the child's individual medical need and potential barriers to attending school
- Arrangements being agreed and established e.g. sending work home (including the provision of virtual learning through school's identified learning programmes ie Microsoft Teams), education offsite (including through hospital schools) or additional adult support within school (in line with an individual health care plan as appropriate)
- On-going discussions between families, school and health providers to monitor agreed arrangements and identify when/ how pupils can be reintegrated back into school (where appropriate).
- Liaising with the SENCo for pupils whom also have Special Educational Needs (SEN)

3.2 If the local authority makes arrangements

If the school can't make suitable arrangements, Kent County Council will become responsible for arranging suitable education for these pupils.

Where a pupil has medical needs that prevent them from attending a Viking school for 15 days or more, the school will make a referral to [Kent School Health Service](#).

In cases where the local authority makes arrangements, the school will:

- Work constructively with the local authority, providers, relevant agencies and parents to ensure the best outcomes for the pupil
- Share information with the local authority and relevant health services as required
- Help make sure that the provision offered to the pupil is as effective as possible and that the child can be reintegrated back into school successfully
- When reintegration is anticipated, work with the local authority to:
 - Plan for consistent provision during and after the period of education outside the school, allowing the pupil to access the same curriculum and materials that they would have used in school as far as possible
 - Enable the pupil to stay in touch with school life (e.g. through newsletters, emails, invitations to school events or internet links to lessons from their school)
 - Create individually tailored reintegration plans for each child returning to school
 - Consider whether any reasonable adjustments need to be made

4. Monitoring arrangements

This policy will be reviewed annually by the Executive Headteacher. At every review, it will be approved by the Board of Trustees.
